

WHAT IS A HOUSEHOLD HAZARDOUS WASTE?

Household hazardous wastes are household products that can be harmful to our health and environment if disposed of improperly. Certain materials that are used around the house may be flammable, corrosive, toxic or even reactive.

Fortunately, residents in Boone County can dispose of such items to several drop-off locations for household hazardous waste.

1. Spring & Fall Household Hazardous Waste Day Events hosted by the Boone County Solid Waste Management District. (Lebanon & Zionsville Locations)

OR

2. Obtain a voucher from the Boone County Solid Waste Management District Office & drop off the unwanted items with voucher at one of the Marion County Tox Drop Sites in Indianapolis (*See opposite side for locations*). As a part of the voucher program, the Boone County Solid Waste Management District will pay for the cost of disposing your household hazardous waste. **(Please take multiple items as fees are paid per trip oppose to per item.)**

Please Note: Electronics (Working or Broken) can be taken to your local Goodwill store & recycled for FREE! Check out <http://reconnectpartnership.com/> for complete list & locations.

For more information regarding this and other programs in the District please contact:
